

Value Through Discovery

Strategic Partnerships with quality industry partners to participate in multiple discovery opportunities by leveraging their capital and technical capacity.

District Scale Projects in key mineral belts in western North America - Golden Triangle & south central B.C.; Laramide porphyry belt in NW Mexico & Arizona; and Sierra Madre Occidental W. Mexico.

Near-term Value through royalties and return on equity.

Exploration Expenditures to June 30, 2017

Funded 83% by industry partners

Corporate Structure 65.5M shares issued, 86.1M fully diluted
30% insider ownership (11% management, 17.45% Altius Minerals)
\$4.5M in working capital (June 30, 2017)

Superior risk-adjusted returns Participation in exceptional value creation opportunities through a growing and diverse portfolio of projects. Minimized dilution by partner funding at the project level.

New exploration alliance with Newmont

New partner on Cerro Cascaron - Harvest Gold

Plans for 2017

Expand our exploration partnerships

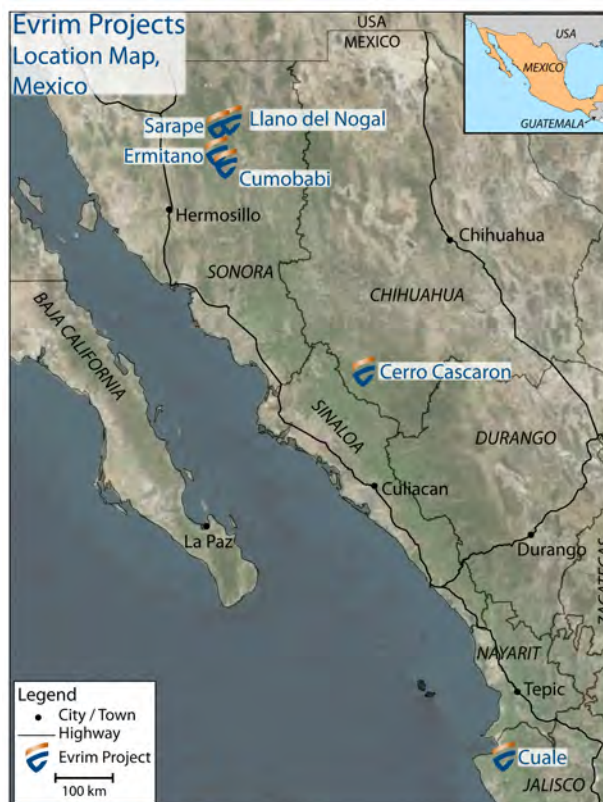

Focus on high value exploration partners with the financial capability and risk capacity for early and later stage exploration projects.

Structure near-term value creation

Evrime's deal structure on optioned projects allows for exceptional returns on exploration discoveries through cash payments, minority interests and royalties in return for majority equity ownership in its projects.

Significantly enhance our project portfolio

Evrime is strategically positioned to capitalize on opportunities in Mexico and Canada. With our focus on quality, we are working to identify and acquire exciting projects to take to our existing and potential JV partners.

Joint Ventures

Antofagasta Minerals S.A.

Ball Creek

Copper-gold porphyry exploration in 2017

First Majestic Silver Corp.

Evrim projects close to First Majestic's Santa Elena Mine:

Ermitaño

New gold-silver discovery made at Ermitaño. Discovery hole EW16-04: 18 m grading 11.5 g/t gold. Additional results pending.

Cumobabi

Reconnaissance exploration underway at the Cumobabi property.

Harvest Gold

Cerro Cascaron, Chihuahua

Located in the Sierra Madre Occidental multiple epithermal high-grade gold targets, untested by drilling.

Available Projects

Llano del Nogal, Sonora

Situated in the Nacozari trend, undrilled with encouraging evidence of porphyry alteration and mineralization.

Axe, British Columbia

Under-explored copper porphyry target. First phase of exploration completed in July 2017.

Management

Paddy Nicol, President, CEO & Director

Alain Charest, VP Exploration (Mexico)

Charles Funk, VP New Opportunities & Exploration

Stewart Harris, P.Geo., VP Technical Services

Mahesh Liyanage, CPA, CA, CFO

Independent Directors

Paul van Eeden, B.Sc., Chairman & Director

David Caulfield, P.Geo., Director

John Thompson, Ph.D., Director

Forward Looking Statements

This document includes certain statements that may be deemed "forward looking statements". All statements in this presentation, other than statements of historical facts, that address events or developments that Evrim Resources Corp. (the "Company") expects to occur, are forward looking statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although the Company believes the expectations expressed in such forward looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward looking statements. Factors that could cause the actual results to differ materially from those in forward looking statements include market prices, exploitation and exploration successes, and continued availability of capital and financing, and general economic, and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward looking statements. Forward looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Except as required by securities laws, the Company undertakes no obligation to update these forward looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.

Qualified Person Statement: The content of this presentation has been reviewed by Stewart Harris P.Geo., Vice President, Technical Services for the Company. Mr. Harris is a Qualified Person as defined under the terms of National Instrument 43-101.
